AN INTRODUCTION TO PREMIER MEDICAL GROUP

About Premier Medical Group

Premier Medical Group offers comprehensive, integrated care providing patients with access to state-of-the-art procedures, advanced technology, excellent customer service and medical expertise. As a multi-specialty medical practice, Premier Medical Group offers depth of care in both medical and surgical specialties.

Thirteen experienced urologists provide a full range of treatment for urological care including, prostate care, (the first group in the area to use the sophisticated daVinci robotic surgical system) urinary incontinence, overactive bladder, prostate, bladder and kidney cancers, kidney stones, female and male and female sexual dysfunction and vasectomy. We also offer services through our Premier Women's Center for Continence and Sexual Health; a dedicated facility serving women with experience bladder dysfunction and sexual health issues.

Ten highly trained gastroenterologists focus on digestive tract disorders. These include screenings and treatment for liver disease, celiac disease, heartburn, colitis, ulcers, hernia, lactose intolerance testing, Crohn's disease, and colon cancer. In addition, both the Poughkeepsie and New Windsor offices provide state of the art endoscopy centers for the convenience of our patients. Premier has its own pathology lab and radiology department concentrating exclusively on urology and gastroenterology.

Our thirteen internal medicine physicians offer years of experience in the fields of general internal medicine, family practice, pulmonology, endocrinology, nephrology, family practice and pediatrics. Our team is large enough to offer patients a wide-range of services yet small enough to provide highly personalized care. The expertise of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Five board certified podiatrists specialize in treating foot and ankle disorders, both medically and surgically. Our podiatrists are keenly aware of how treating the feet and ankles relates to patients' total health care needs – always keeping this in mind as they work with the patient to find the best treatment option.

The Rheumatology Division of Premier Medical Group is devoted to the diagnosis and treatment of rheumatic disease, including rheumatoid arthritis, osteoarthritis, lupus, polymyositis / dermatomyositis, scleroderma, Wegener's Granulomatosis, giant cell arteritis and polymyalgia rheumatica, vasculitis, and gout and pseudogout.

Premier's Dermatology division focuses on medical dermatology as well as a wide array of aesthetic dermatologic procedures, such as Botox and soft tissue fillers as well as laser skin resurfacing.

In 2018 Premier opened its Pediatric division. This new division is comprised of 6 board certified pediatricians that specialize in caring for children from birth to age 21 and providing them with the highest quality pediatric care in the Hudson Valley.

The expertise of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Premier Medical Group has the distinction of being one of the largest providers of clinical research in a private practice setting. This offers patients the opportunity to benefit from the latest treatments and therapies. Our Clinical Research department services patients in our Poughkeepsie and Kingston offices. Premier also has its own clinical and pathology labs and radiology department, offering on-site CT and ultrasound services.

At Premier, patients are afforded more than just great medical care, they are provided exceptional customer service and consideration. Patients can also be assured that every effort is made to see them on time. Now when you need a specialist, you have the option of going to a “specialty” medical practice. The physicians at Premier Medical Group know there is a tremendous value to working together and bringing specialty care to their patients in one place. With offices in Poughkeepsie, Fishkill, Rhinebeck, Kingston, Newburgh, New Windsor and Montgomery there is no need to travel for the specialty care you deserve.

GASTROENTEROLOGY

We offer a range of specialized medical services that include colonoscopy for colon cancer screening, upper endoscopy to study the upper GI tract, capsule endoscopy for diagnosis of small bowel disorders, the BRAVO monitoring system to evaluate acid reflux disease, motility studies and Hydrogen Breath testing.

PREMIER WOMEN'S CENTER FOR CONTINENCE AND SEXUAL HEALTH

Certain health concerns in a woman's life can be difficult to discuss with others, even her physician. These concerns can include female urinary incontinence, female pelvic organ prolapse, female sexual health issues and more. In addition to causing discomfort, inconvenience and sometimes pain, these health problems often cause embarrassment and can negatively impact quality of life. While some women may think that these problems are a natural part of the aging process, they are not. It is important to know these issues are, in most cases, very treatable.

Premier Women's Center specializes in diagnosing and treating a wide range of female pelvic disorders and female sexual health issues. Our multidisciplinary team of experienced specialists, led by Dr. Daniel Katz, includes nurse practitioners, nurses (RN's and LPN's) and urology technicians. These dedicated professionals understand the personal nature of these conditions and provide confidential, compassionate and individualized care.

WOMEN'S CENTER OFFICE LOCATION:

Atrium at MidHudson Regional Hospital

1 Webster Avenue, Suite 300, Poughkeepsie, NY 12601

Tel: 845-437-5000

Daniel Katz, M.D., FPM-RS

- Overactive bladder
- Pelvic floor prolapse
- Robotic surgery for prolapse repair
- Minimally invasive surgery for incontinence and overactive bladder

- Female sexual dysfunction
- Vaginal Laser Rejuvenation

OFFICE(S):

Poughkeepsie - Atrium at
MidHudson Regional Hospital

UROLOGY

Premier Medical Group's Urology division is one of the finest providers of comprehensive urologic services in the Hudson Valley and Northeast. Established over 40 years ago, today we maintain offices in 7 locations, in Dutchess County, Ulster County, and Orange County.

Leaders in their field, each of our physicians is trained in general urology as well as in at least one sub-specialty such as urologic cancers, urinary incontinence, pelvic prolapse, infertility, erectile dysfunction, robotic and laparoscopic surgery, and kidney stone disease.

Premier Medical Group is proud to offer patients state-of-the-art urological treatment, medical expertise and outstanding patient care.

INTERNAL MEDICINE

We offer primary health care services throughout the Hudson Valley with providers who manage and coordinate a patient's healthcare needs, prevention and wellness strategies, and appropriate health screening tests.

With our electronic medical record system, our providers have instant access to a patient's records from any provider in our practice allowing for more cohesive and responsive care.

Premier Medical Group is one of the few medical practices to maintain its own pathology lab and radiology department including a CT scanner, ultrasound services, and on site phlebotomy services, providing our patients with fast and accurate test results.

PEDIATRICS

Premier's Pediatric division (formerly TLC Pediatrics) cares for children from birth to age 21 and provides them with the highest quality pediatric care in the Hudson Valley. To acknowledge that vital role in your children's lives, our Pediatric division qualified in 2012 as a NCQA-certified Patient Centered Medical Home.

Our clinicians, nurses and support staff work together to ensure that your child has routine well-child exams and age-appropriate screening tests. We are available 24/7 to answer your medical questions. We help keep track of your specialist appointments and we call you for follow up after trips to the urgent care center or emergency room.

All of our Pediatrics doctors have admitting privileges at Vassar Brothers Medical Center. Vassar is widely recognized as the leader in pediatric care in the Mid-Hudson Valley. Several pediatric specialists maintain office hours at Vassar, further enhancing the level of pediatric care.

Clinical Research

During the past 20 years, the Clinical Research department of Premier Medical Group has conducted over 300 clinical trials at our Poughkeepsie and Newburgh locations. These trials have led to the approval of such drugs as Viagra, Levitra, Cialis, Detrol LA, Vesicare, Sanctura, Gelnique, Rapaflo, Firmagon, Pegasys Pro-Click, Toviaz, Xgeva, Myrbetrig, Zytiga, Xtandi, Viekira, Addyi, Trulance and Stelara.

The Clinical Research department offers flexible scheduling and individualized attention to all our research participants. All study related procedures, including lab work, physical exams, EKGs, and imaging studies are conducted at no cost, with most procedures performed in our own offices. Most studies also offer clinical research patients a small per-visit stipend. Health insurance is not needed.

During the course of the study, the physicians and clinical research staff are always available to answer any questions. Your privacy is protected, and your medical records are confidential.

If you are interested in participating in a clinical research study, please call our Clinical Research department at 845-437-5000, to find the right study for your needs.

Premier Medical Group's clinical research program offers the opportunity for patients to receive the newest treatments in urology and gastroenterology. In order to ensure that the clinical research patient's rights and safety are protected, all research protocols undergo review and approval from an Institutional Review Board. The entire research staff is trained in Good Clinical Practice and follows FDA guidelines.

Patient Portal

Manage Your Healthcare Online, Anytime

Premier's online Patient Portal serves as another step towards creating more efficient and effective communication between you and our office. The Patient Portal is part of your personal electronic health record, and allows patients to conveniently access their health information from the comfort of their home or office. Patient Portal can also be used to communicate with the practice easily and safely. Using a secure password, patients can log into the online Patient Portal

24 hours a day, 7 days a week to:

- Request an appointment and view past and scheduled appointments
- Cancel an appointment
- Request a refill of a prescription
- Download copies of medication lists and patient medication education literature
- Send a secure message to the practice
- View personal health information
- View your billing statements and pay your bill online
- Update demographic, medical and surgical history, and allergy and medication information

How do I Sign up for the Patient Portal?

Signing up for the Patient Portal couldn't be easier: all you need is a valid e-mail address and an internet connection! To enroll, stop by the front desk and speak to any of our staff.

They will enter your e-mail address into our system and provide you a secure ID along with instructions on how to finish the enrollment process at home or on your smartphone.

If you have any questions or concerns please call 845.437.3803
