Prostate cancer is one of the most curable types of cancer, if detected in the early stages. One in six men will be diagnosed with prostate cancer during his lifetime. Over 200,000 men will be diagnosed with prostate cancer this year alone. **Premier Medical Group founded Premier Cares Foundation to help provide support, awareness, education, and treatment to those individuals in the community with urologic and digestive diseases.** Money raised by the Walk supports local charities and prostate programs to offer free screenings and other supportive services.

Come walk in honor or in memory of a loved one.
