AN INTRODUCTION TO PREMIER MEDICAL GROUP

PREMIER *medical group*

About Premier Medical Group

Premier Medical Group offers comprehensive, integrated care providing patients with access to state-of-the-art procedures, advanced technology, excellent customer service and medical expertise. As a multi-specialty medical practice, Premier Medical Group offers depth of care in both medical and surgical specialties.

Thirteen experienced urologists provide a full range of treatment for urological care including, prostate care, urinary incontinence, overactive bladder, prostate, bladder and kidney cancers, kidney stones, female and male sexual dysfunction, fertility services, and vasectomy. We also offer services through The Women's Health and Wellness Center at Premier; the Hudson Valley's premier center for treatment of female pelvic disorders, female sexual health issues, and gynecological health.

Fourteen highly trained gastroenterologists focus on digestive tract disorders. These include screenings and treatment for liver disease, celiac disease, heartburn, colitis, ulcers, hernia, lactose intolerance testing, Crohn's disease, and colon cancer. In addition, both the Poughkeepsie and New Windsor offices provide state of the art endoscopy centers for the convenience of our patients.

Our sixteen internal medicine physicians offer years of experience in the fields of general internal medicine, family practice, pulmonology, endocrinology and nephrology. Our team is large enough to offer patients a wide-range of services yet small enough to provide highly personalized care. The expertise of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Four board certified podiatrists specialize in treating foot and ankle disorders, both medically and surgically. Our podiatrists are keenly aware of how treating the feet and ankles relates to patients' total health care needs – always keeping this in mind as they work with the patient to find the best treatment option.

The Rheumatology division of Premier specializes in state-of-the-art management of rheumatoid arthritis, lupus, sjogren's syndrome, scleroderma, gout, pseudogout, vasculitis, osteoarthritis and osteoporosis among many other musculoskeletal and autoimmune disorders.

Premier's Dermatology division focuses on medical dermatology as well as a wide array of aesthetic dermatologic procedures, such as Botox® and soft tissue fillers.

Premier's Pediatric division is comprised of six board certified pediatricians that specialize in caring for children from birth to age 21 and providing them with the highest quality pediatric care in the Hudson Valley.

The Neurology division of Premier provides comprehensive evaluation and treatment of all adult neurological disorders that involve the brain and nervous system.

Premier's Cardiology division consists of three highly skilled cardiologists offering expert consultation and patient evaluation, as well as the most advanced diagnostic and treatment techniques.

The expertise of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Premier Medical Group has the distinction of being one of the largest providers of clinical research in a private practice setting. This offers patients the opportunity to benefit from

the latest treatments and therapies. Our Clinical Research department services patients in our Poughkeepsie and New Windsor offices. Premier also has its own clinical and pathology labs, and radiology department, offering on-site CT, ultrasound and x-ray services.

At Premier, patients are afforded more than just great medical care, they are provided exceptional customer service and consideration. With offices in Poughkeepsie, Fishkill, Kingston, Newburgh, and New Windsor there is no need to travel for the specialty care you deserve.

GASTROENTEROLOGY

We offer a range of specialized medical services that include colonoscopy for colon cancer screening, upper endoscopy to study the upper GI tract, capsule endoscopy for diagnosis of small bowel disorders, the BRAVO monitoring system to evaluate acid reflux disease, motility studies and Hydrogen Breath testing.

UROLOGY

Premier Medical Group's Urology division is one of the finest providers of comprehensive urologic services in the Hudson Valley and Northeast. Established over 40 years ago, today we maintain offices in 4 locations, in Dutchess County, Ulster County, and Orange County.

Leaders in their field, each of our physicians is trained in general urology as well as in at least one sub-specialty such as urologic cancers, urinary incontinence, pelvic prolapse, infertility, erectile dysfunction, robotic and laparoscopic surgery, and kidney stone disease.

Premier Medical Group is proud to offer patients state-of-the-art urological treatment, medical expertise and outstanding patient care.

*The Women's
Health & Wellness Center
at PREMIER*

Women of every age and stage need individualized care in a compassionate, supportive environment.

That's why we've created the Women's Health & Wellness Center at Premier for comprehensive gynecological and urological medicine.

Women of all ages have specialized health needs, from menstruation, through the fertile years, to menopause and beyond. There are a variety of disorders or dysfunctions that can occur at any age in the urinary or reproductive systems. That's why we've created the Women's Health & Wellness Center at Premier for comprehensive gynecological and urological medicine. Our multidisciplinary team of experienced urology and gynecology specialists, led by Dr. Daniel Katz, understand the personal nature of these conditions and provide compassionate care and take the time to listen and explain what is happening in your body.

Urology and sexual health specialists

Our kind and knowledgeable providers understand that certain health concerns in a woman's life can be difficult to discuss with others, even her physician. Issues like female urinary incontinence, female pelvic organ prolapse, female sexual health issues and more. In addition to causing discomfort, inconvenience and sometimes pain, these health problems often cause embarrassment and can negatively impact quality of life. While some women may think that these problems are a natural part of the aging process, they are not. It is important to know these issues are, in most cases, very treatable.

Gynecology specialists

Women's health needs change throughout your life in important ways. The gynecologists at Premier's Gynecology department understand these evolving needs and partner with you to keep you healthy for many years to come. Premier's providers offer patient-centered and multidisciplinary care to women for a full range of gynecological concerns, emphasizing preventive care to ensure you catch any problems early. If you need treatment, we work with you to determine the most effective course of action, preferring non-invasive or minimally invasive procedures whenever possible.

Daniel Katz, M.D., FPM-RS

INTERNAL MEDICINE

We offer primary health care services throughout the Hudson Valley with providers who manage and coordinate a patient's healthcare needs, prevention and wellness strategies, and appropriate health screening tests.

With our electronic medical record system, our providers have instant access to a patient's records from any provider in our practice allowing for more cohesive and responsive care.

Premier Medical Group is one of the few medical practices to maintain its own pathology lab and radiology department including a CT scanner, ultrasound, and x-ray services, and on site phlebotomy services, providing our patients with fast and accurate test results.

PEDIATRICS

Premier's Pediatric division cares for children from birth to age 21 and provides them with the highest quality pediatric care in the Hudson Valley. To acknowledge that vital role in your children's lives, our Pediatric division is recognized as a NCQA-certified Patient Centered Medical Home.

Our clinicians, nurses and support staff work together to ensure that your child has routine well-child exams and age-appropriate screening tests. We are available 24/7 to answer your medical questions. We help keep track of your specialist appointments and we call you for follow up after trips to the urgent care center or emergency room.

Phlebotomy Services

Premier's On-site Phlebotomy Patient Service Centers, conveniently located in Poughkeepsie, Fishkill and New Windsor, allow our patients a convenient way to get the test that they need as quickly as possible. It also means your results are sent directly to your physician without any delays.

Radiology Services

For the convenience of our patients, Premier Medical Group also offers many diagnostic imaging services in-house. Quality, service and patient satisfaction is Premier Medical Group's top priority. Radiology services offered include: X-ray, Computerized Tomography (CT Scan), Ultrasound, and Coronary Calcium Scan.

To schedule your Lab or Imaging appointment, visit:
