AN INTRODUCTION TO PREMIER MEDICAL GROUP

PREMIER *medical group*

About Premier Medical Group

Premier Medical Group offers comprehensive, integrated care providing patients with access to state-of-the-art procedures, advanced technology, excellent customer service and medical expertise. As a multi-specialty medical practice, Premier Medical Group offers depth of care in both medical and surgical specialties.

Fifteen experienced urologists provide a full range of treatment for urological care including, prostate care, urinary incontinence, overactive bladder, prostate, bladder and kidney cancers, kidney stones, female and male sexual dysfunction, fertility services, and vasectomy. Our supportive doctors at The Male Fertility Center at Premier are available to help male patients access the best fertility treatment available based on each patient's diagnosis. We also offer services through The Women's Health and Wellness Center at Premier; the Hudson Valley's premier center for treatment of female pelvic disorders, female sexual health issues, and gynecological health.

Fourteen highly trained gastroenterologists focus on digestive tract disorders. These include screenings and treatment for liver disease, celiac disease, heartburn, colitis, ulcers, hernia, lactose intolerance testing, Crohn's disease, and colon cancer. In addition, both the Poughkeepsie and New Windsor offices provide state of the art endoscopy centers for the convenience of our patients.

Our 18 internal medicine physicians offer years of experience in the fields of general internal medicine, family practice, pulmonology, endocrinology and nephrology. Our team is large enough to offer patients a wide-range of services yet small enough to provide highly personalized care. The expertise

of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Five board certified podiatrists specialize in treating foot and ankle disorders, both medically and surgically. Our podiatrists are keenly aware of how treating the feet and ankles relates to patients' total health care needs – always keeping this in mind as they work with the patient to find the best treatment option.

The Rheumatology division of Premier specializes in state-of-the-art management of rheumatoid arthritis, lupus, sjogren's syndrome, scleroderma, gout, pseudogout, vasculitis, osteoarthritis and osteoporosis among many other musculoskeletal and autoimmune disorders.

Premier's Dermatology division focuses on medical dermatology as well as a wide array of aesthetic dermatologic procedures, such as Botox® and soft tissue fillers.

The Neurology division of Premier provides comprehensive evaluation and treatment of all adult neurological disorders that involve the brain and nervous system.

Premier's Cardiology division consists of three highly skilled cardiologists offering expert consultation and patient evaluation, as well as the most advanced diagnostic and treatment techniques.

The expertise of our physicians is complemented by the availability and experience of our allied professionals including physician assistants and nurse practitioners.

Premier Medical Group has the distinction of being one of the largest providers of clinical research in a private practice setting. This offers patients the opportunity to benefit from the latest treatments and therapies. Our Clinical Research

department services patients in our Poughkeepsie and New Windsor offices. Premier also has its own clinical and pathology labs, and radiology department, offering on-site CT, ultrasound and x-ray services.

At Premier, patients are afforded more than just great medical care, they are provided exceptional customer service and consideration. With offices in Poughkeepsie, Fishkill, Kingston, Newburgh, New Windsor, Hopewell Junction, and Wappingers Falls, there is no need to travel for the specialty care you deserve.

GASTROENTEROLOGY

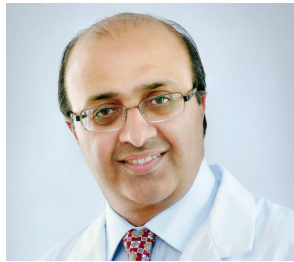

We offer a range of specialized medical services that include colonoscopy for colon cancer screening, upper endoscopy to study the upper GI tract, capsule endoscopy for diagnosis of small bowel disorders, the BRAVO monitoring system to evaluate acid reflux disease, motility studies and Hydrogen Breath testing.

UROLOGY

Premier Medical Group's Urology division is one of the finest providers of comprehensive urologic services in the Hudson Valley and Northeast. Established over 40 years ago, today we maintain offices in 4 locations, in Dutchess County, Ulster County, and Orange County.

Leaders in their field, each of our physicians is trained in general urology as well as in at least one sub-specialty such as urologic cancers, urinary incontinence, pelvic prolapse, infertility, erectile dysfunction, robotic and laparoscopic surgery, and kidney stone disease.

Premier Medical Group is proud to offer patients state-of-the-art urological treatment, medical expertise and outstanding patient care.

The Male
Fertility Center
at PREMIER

The Male Fertility Center at Premier was created with our patients in mind. The Center facilitates the full spectrum of male fertility care, with access to phlebotomy, semen analysis testing, and imaging, at our convenient Eastdale location to help ensure our patients access to the care they need in a comfortable and professional environment.

Our providers have extensive experience in the evaluation and leading-edge treatments for male fertility including non-scalpel vasectomy, in-office evaluation of semen analysis, and male hormone replacement. In addition, the Center provides experienced outpatient microsurgical experience with an on-campus ambulatory surgery center—microsurgical vasectomy reversal, microsurgical varicocele repair, microsurgical surgical epididymal and testicular sperm retrieval for IVF, and microsurgical options for refractory scrotal pain.

At Premier, we provide individualized care in a compassionate, supportive environment for women at every age and stage.

Women of all ages have specialized health needs, from menstruation, through the fertile years, to menopause and beyond. There are a variety of disorders or dysfunctions that can occur at any age in the urinary or reproductive systems. That's why we've created the Women's Health & Wellness Center at Premier for comprehensive gynecological and urological medicine. Our multidisciplinary team of experienced urology and gynecology specialists, led by Dr. Daniel Katz, understand the personal nature of these conditions and provide compassionate care and take the time to listen and explain what is happening in your body.

Urology and sexual health specialists

Our providers understand that certain health concerns, such as urinary incontinence, pelvic organ prolapse, and sexual health issues, can be difficult to discuss. These conditions, while sometimes seen as a natural part of aging, are very treatable. Our team is here to help you address these issues with care and understanding.

Gynecology specialists

Women's health needs evolve throughout life. Premier's gynecologists offer patient-centered, multidisciplinary care for a range of gynecological concerns, emphasizing preventive care and preferring non-invasive or minimally invasive treatments when necessary. We partner with you to maintain your health for years to come.

INTERNAL MEDICINE

We offer primary health care services throughout the Hudson Valley with providers who manage and coordinate a patient's healthcare needs, prevention and wellness strategies, and appropriate health screening tests.

With our electronic medical record system, our providers have instant access to a patient's records from any provider in our practice allowing for more cohesive and responsive care.

Premier Medical Group is one of the few medical practices to maintain its own pathology lab and radiology department including a CT scanner, ultrasound, and x-ray services, and on site phlebotomy services, providing our patients with fast and accurate test results.
